PROFILE

A young tech enthusiast who completed his schooling from Kendriya Vidyalaya Masjid Moth in the year 2019, and started pursuing B.tech in the fields of Electronics and communication from G.B pant govt. engineering college in the year 2019. while Pursuing the course I started thinking in my career in development, which results in my early stage of getting a job as a Flutter developer in Leanports softwares solution, I started working as a App developer there and gain so much knowledge of how things work in big tech companies. My goal is to apply everything I'm learning and have learned to make myself a great developer, I've also expanded my domain of working by learning backend development using Nodejs and mongoDB and now i'm confident of making more out of my career.
